The daily rhythm of prayer, *lectio*, work, hospitality marks equally the life of the brothers in our two fraternities: first of all in Jerusalem, where for almost thirty years the brothers have been living a presence of listening, dialogue, and intercession in the heart of the holy city in which the mystery of salvation was carried out and where the Church was born. And, by now for ten years in Ostuni, where five brothers give witness day after day of obedience to a project of following the Lord in monastic life, which can be lived also in more reduced dimensions.
